

## Conan Gray Tour Bio

Since releasing original demos on his YouTube channel at the age of 15, Conan Gray has emerged as one of the pre-eminent pop superstars of his generation. Even after the commercial success of global multi-platinum hits “Heather” and “Maniac”, his music continues to maintain its unflinching authenticity and originality. Gray’s debut album, *Kid Krow*, crafted by Gray and longtime collaborator and producer Dan Nigro, reached #5 on the Billboard 200, #1 on the Billboard Pop Albums chart and became the biggest new artist debut in over two years. In the summer of 2020, when “Heather” topped charts around the world, Sir Elton John publicly praised Gray for being the only artist on the Spotify top 50 to have written the song entirely on their own. With almost 5 billion streams, Gray has attracted unanimous applause from a who’s who of tastemakers including Vogue, V Man, Cosmopolitan, Paper, The Fader, Billboard, Forbes, MTV, I-D, Wonderland, Clash, Notion, Seventeen and has delivered rapturous performances on television shows such as *Late Night with Seth Meyers*, *The Late Late Show with James Corden*, and *The Today Show*. Most recently, Gray released singles “Astronomy”, which Taylor Swift labeled a “masterpiece”, as well as “People Watching” in advance of his forthcoming album. He has previously sold out three North American tours, a European tour, and shows around the world.
